***Election/Restrictions***

Applicant's election with traverse of Group I, Claims 1-9, in the reply filed on 8-15-2003 is acknowledged. The traversal is on the ground(s) that the restriction was not valid. This is found persuasive.

The requirement is still improper and is therefore rescinded. The rejoinder request, for claims 10-32, filed 3-26-2004 is acknowledged and is now considered moot.

***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 10-18 are rejected under 35 U.S.C. 101 because claims to computer programs per se are not statutory subject matter. Most claims to a computer program can easily be amended to be statutory by inserting language stating that the computer program is encoded on a computer readable medium.

***Allowable Subject Matter***

Claims 1-9 and 19-25 are allowed.
